

# How to Install and Use Global Protect VPN Client on iOS:

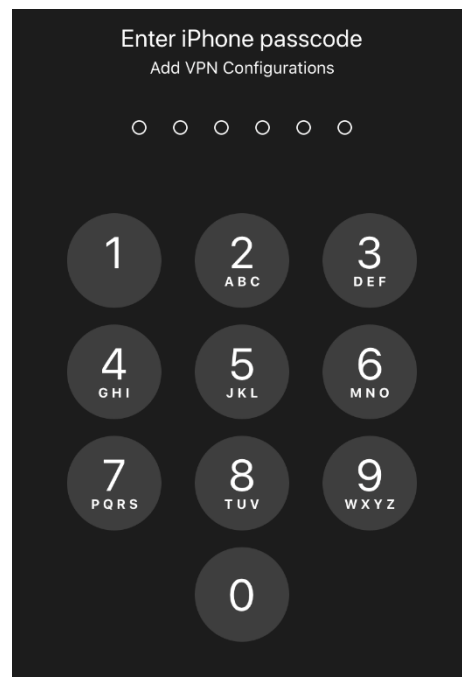

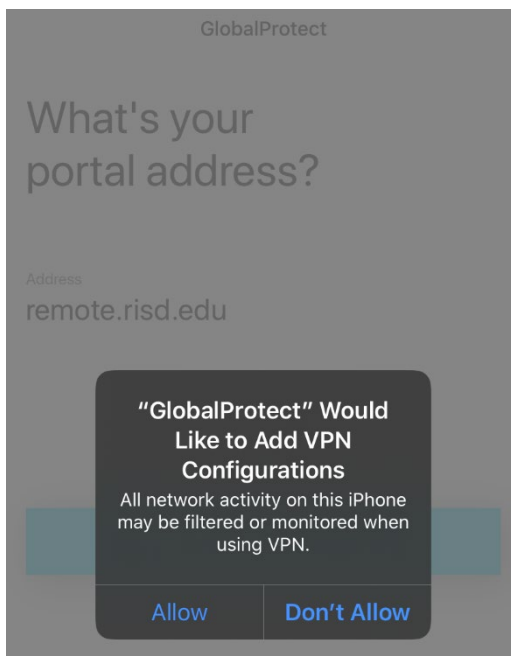

1. Open the **App Store** and *install* the **Global Protect** app by Palo Alto Networks. Once it is installed, launch the app.

2. Type **remote.risd.edu** in the portal *Address* field and tap **Connect**.

3. Tap **Allow** on the dialog asking to *give Global Protect permission to add VPN configurations*. You will be prompted for **your iOS device's pin** (or other authentication method).

4. Enter your **RISD Username** and **password** in the *username* and *password* fields, and then tap **Connect**.
